

## Revit Technician with 3+ years' experience

SD Engineers is seeking a talented, enthusiastic and personable Revit Technician with 3+ years of experience to join our dynamic team in our central London location.

This full time position is available to start from February 2024. To apply, please send through your CV and tell us how your skills and experience match our needs.

### About SD Engineers

We are a practice of imaginative engineers collaborating with some of the country's most ambitious architects and clients, emerging and established, to deliver the highest quality buildings and infrastructure projects. As creative problem solvers, we help clients realise their designs by truly understanding the narrative and intent behind each project. Our experience as structural and civil engineers allows us to work at all scales and across all typologies, acting as a reliable partner throughout the design and build process. We are committed to delivering low carbon designs and will actively suggest ways to reduce impact on the environment, and undertake carbon counting exercises to justify our approach.

### About the role

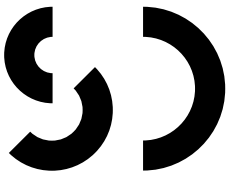

The role requires someone who is self-motivated, embraces responsibility, and possesses strong modelling skills. The successful candidate will work collaboratively to deliver high quality drawings and models for a wide range of projects, varying from small residential refurbishments and extensions to large complex development projects.

### Key requirements

The successful candidate must have good experience using Revit and AutoCAD. Exceptional communication skills are a requirement for this role as we collaborate with numerous stakeholders and design disciplines on all projects. Being a reliable and highly organised team player is an essential part of this role to ensure we meet strict deadlines.

### The successful candidate will:

- Have a minimum of 3 years' relevant experience
- Be experienced using Revit and AutoCAD on a variety of projects
- Communicate well with internal and external teams
- Be highly organised and able to work on multiple projects at once
- Be able to work independently and as part of a team
- Have a high level of attention to detail and take pride in their work

The following would be advantageous but not essential as training will be provided:

- A working knowledge of BIM
- Knowledge of Dynamo and Autodesk A360
- Qualified to HNC Level
- Knowledge of PAS1192 and ISO1950

#### SD Team Benefits

- Excellent career development opportunities with weekly in-house CPD sessions and support to gain EngTech with IStructE or ICE.
- Flexible working with up to two days a week home working available and flexible start times. Core hours 10-12 and 2-4pm. Once a month core hours can be flexed to allow an early finish at 12pm or a late start at 2pm.
- Regular social activities including Annual Summer Day and Christmas Lunch.
- Generous profit share bonus scheme, up to 15% annually.
- Pension contribution of up to 6%.
- 25 days annual leave, with additional leave allocated as part of our long service benefit.
- Salary sacrifice scheme for Cycle to Work and computer equipment.
- Childcare vouchers.
- Enhanced Paternity and Maternity Pay.
- Access to Employee Welfare Scheme.

#### Salary

£28,000 - £34,000, depending on experience.

Joining bonus for direct applicants, subject to passing probation.

#### Closing date

29 February 2024

We are conscientious people and place great emphasis on social value. We are signatories of the UK Structural Engineers Declare, and members of the NLA Diverse Leaders Pledge and Heart of the City. Our aim is to provide a diverse, healthy, motivated, inclusive, and enjoyable workplace. We are an equal opportunities employer and encourage applications from underrepresented groups within the built environment industry.
