

## BIM Manager

SD Engineers is seeking a driven, enthusiastic and personable BIM Manager with good relevant experience to join our dynamic team in our central London location.

To apply, please complete an application form and send through your CV and cover note setting out how your skills and experience match our needs.

### About SD Engineers

We are a Structural Award-winning practice of imaginative engineers, collaborating with some of the country's most ambitious architects and clients, emerging and established, to deliver the highest quality buildings and infrastructure projects.

As creative problem solvers, we help clients realise their designs by truly understanding the narrative and intent behind each project. Our experience as structural and civil engineers allows us to work at all scales and across all typologies, acting as a proactive and reliable client partner throughout the design and build process.

We are committed to delivering efficient, low carbon designs and will actively suggest ways to reduce impact on the environment and undertake carbon counting exercises to justify our approach.

### About the role

The role requires someone who is self-motivated, embraces responsibility, and possesses strong technical design skills. The successful candidate will work collaboratively to deliver high quality 3D drawings and BIM coordination on a wide range of projects, varying from small residential refurbishments and extensions to large complex development projects. You should have a desire to mentor and train more junior technicians.

### Key skills and requirements

The successful candidate should have a qualification in an engineering related field at a HNC level or higher. You should ideally be a member of the IStructE/ ICE and be driven towards achieving TIStructE/ EngTech. Exceptional communication skills are a requirement for this role as we collaborate with numerous stakeholders and design disciplines on all projects. Being a reliable and highly organised team player is an essential part of this role to ensure we meet strict deadlines.

The successful candidate will:

- be passionate about construction, engineering and new technology
- have a high level of attention to detail producing complex drawings and models autonomously and accurately
- have relevant experience working on complex building projects in Revit in all the major materials, both new build and refurbishment

- have some experience in Revit plugins including dynamo and creating templates/bespoke families, and efficient ways of capturing embodied carbon data from models
- be experienced in construction phasing and modelling of temporary works sequencing in Revit
- be familiar with ISO 19650 and able to assist with us in achieving BIM Certification

### **Salary**

£60,000 - £70,000 depending on experience.

Direct applicants only. Joining bonus subject to passing probation.

We are conscientious people and place great emphasis on social value. Our aim is to provide a diverse, healthy, motivated, inclusive, and enjoyable workplace. We are an equal opportunities employer and encourage applications from underrepresented groups within the built environment industry.

### **SD Team Benefits**

- Excellent career development opportunities with weekly in-house CPD sessions, monthly training time, and support to gain IStructE or ICE chartered status.
- Technology and Cycle to Work salary sacrifice scheme.
- Pension contribution of up to 6%.
- Generous profit share bonus scheme, up to 15% annually.
